—Agricultural implement agents are abroad in the land. It is unnecessary to state that intending purchasers would generally find it safer and more pleasant to deal exclusively with home merchants for these useful articles.

—The outlook for wheat in this section, at present, is simply magnificent. In many places it has reached upward of a foot in height, and it bears that rich, green color indicative of thrift and promise. This is strong evidence that a mild winter is not always destructive to wheat.

—Mr. Wiley Sams, who was injured in last Friday's cyclone, died on Monday, from injuries then received. One of Mr. Sams' children was also hurt. It is not known exactly in what way Mr. Sams received the injuries that resulted fatally, but it is supposed that it was from the flying and falling debris.

—Portions of this county were visited Friday last by a violent hurricane, blowing down and uprooting many trees, wrecking houses, barns, &c. The storm did no damage at Hickman or immediate vicinity. The first wind struck with damaging force, was through the farm of Mr. and Mrs. J. S. Norman, blowing down fences, and a number of trees, next at Mayfield, where lack of Mettleson's mill turned all to pieces; at Judge Norman's farm, near Cayce, two tenant houses and a barn were blown down, and the two tenants destroyed by fire, at land across from Cayce, two houses were badly damaged; at Wilder, the house was destroyed by fire; at Reuben Hall's all the buildings were destroyed, including a tobacco barn, was destroyed, and a fine lot of hogs sent to the fore-wind; at Bob Alexander's all the buildings were badly damaged; at H. J. Sams the tobacco barn destroyed. The hurricane passed on through the neighborhood of Albion Station, and on through Wolf Valley, in Graves county, causing more or less destruction in its route. The track of the hurricane from the point it set in was followed by one-fourth of a mile wide and all along its course of trees and fences were blown down and other evidence of damage visible. Our correspondent gives the names of our citizens and citizens damaged, and this, but only by hear say, may be incorrect. It was the most terrific hurricane that has swept through the section since that of 1871, that destroyed the residence of Mrs. Andy Shuck and others. Buck Bros. will run up into the thousands of dollars.

—Now is the time, and Burlington is the place, to buy Watches, Clocks and Jewelry, cheap.

—In this time will be found an announcement of Mr. W. A. Jackson, of Hickman county, and a notice of our citizenship, and all who know him and his family has the address of a man of intelligence and fine judgment.

As a farmer he is identified thoroughly in interest with the best and best of our citizenship, and apparently has the intelligence to represent the people. He is a straight Democrat, and announces his candidacy subject to the action of his party.

A BUSINESS NOTE. Facts as to Business Success.

The house of J. AMBERG'S SONS, Hickman, Ky., is pointed to with pride by all citizens interested in the material and business prosperity of the town of Hickman and county of Fulton, because of its thorough responsibility and its solid capital.

Businessmen it will be conceded that in the first characteristic it equals any, and in the latter exceeds any business house in South-West Kentucky or Tennessee. The firm would not approve the Country saying this much in public print, so rigidly do they adhere to the rule to let solid business transactions speak for each point, but the Country saying in private to keep the just secret of merit, and its identification with trade, enable them to see this. Therefore it is, that in case of these characteristics, when this firm does speak to the public through an advertisement that this public know they mean what they say, and will do what they promise. This house is as solid as Hickman itself, and can point to an unbroken record of fair-dealing, no misrepresentation as to quality of goods or prices, but the truth at all times, and one price to all. Read their advertisement in this one and so you need in your other citizens, ask yourself: If the record of this house is not as heralded on forth.

—An Agricultural paper says: "Every paper in the United States is ought occasionally to keep the fact before its readers that burnt corn is a sure cure for hog cholera. The best way is to take a pile of corn and effectively scorch and give the affected hogs free access to it. This remedy was discovered by E. E. Duke at the time his distillery was burnt in Lewistown, Illinois, together with a lot of seed corn which was badly injured as to be unfit for use. It was greedily eaten by the hogs, several of which were cured daily. After the second day not a hog was lost, and the disease entirely disappeared. The remedy has been tried in a number of cases since and has never failed."
